OBJECTIVE

Motivated and fast-learning AI/ML engineer with hands-on experience in Python, deep learning, and data pipelines. Passionate about building real-world AI solutions using LLMs, MLOps, and RAG architectures. Eager to contribute to Sedai's AIOps platform and deliver scalable, production-grade AI features.

EDUCATION

Institute of Aeronautical Engineering ***Sep 2021 – May 2024***
Bachelor of Technology – Information Technology; CGPA: 7.3
SVS Group of Institutions ***June 2018 – Agu 2021***
Diploma of Computer Engineering; CGPA: 7.11
EKASHILA CBSE & STATE SCHOOLS ***March – 2018***
Secondary Education; CGPA: 8.8

SKILL SUMMARY

- **Languages & Tools:** Python, SQL, Git, OpenCV, NumPy, Pandas
- **AI/ML:** Scikit-learn, TensorFlow, Keras, CNNs, Transfer Learning
- **LLMs & MLOps (Learning/Practicing):** LangChain, LlamaIndex, Transformers, RAG, Hugging Face
- **Data Viz:** Tableau, Power BI, Matplotlib, Seaborn
- **Soft Skills:** Critical Thinking, Cross-functional Collaboration, Agile Mindset

PROJECTS

Pneumonia Detection in Chest X Ray Image by Using Deep Learning **Dec 2023 – April 2024**

Technologies: Python, TensorFlow, Keras, OpenCV, CNN, Xception, ResNet, Haar Cascade

- Developed a deep learning solution for medical image classification to detect pneumonia from chest X-ray images
- Utilized **transfer learning** with **Xception and ResNet** architectures for robust feature extraction and high generalization performance on unseen data.
- Designed and implemented the pipeline to be **modular and deployable**, simulating real-world clinical usage with live image streaming.

E-Commerce Sales Data Analysis (Personal Project)

Technologies: SQL, Python (Pandas, Matplotlib), Tableau, Excel

- Conducted end-to-end **business data analysis** on a large e-commerce dataset, focusing on sales trends, customer behavior, and product performance.
- Built **interactive dashboards in Tableau** with KPIs like monthly revenue, user acquisition funnel, product return rates, and top-selling categories.

CERTIFICATES

Data Science Certification – Naresh I Technologies (6 Months) **Jan 2025 -June 2025**

- Completed a comprehensive Data Science program covering Python, Machine Learning, Deep Learning, SQL, and real-time projects using tools like Pandas, TensorFlow, and Power BI.

Hacker Rank SQL (Intermediate)

- Demonstrated strong skills in advanced SQL queries, joins, subqueries, aggregations, and set operations.
